Ages and Stages Questionnaire

Ages and Stages Questionnaire

“A Developmental
Check Up for Infants and
Preschool Children”

What is the Ages and Stages Questionnaire?

ASQ is a series of questions completed by parents to check their child's progress and learn more about what to expect their child to be able to do at each stage of development.

At what age should I use the ASQ?

ASQ is a questionnaire developed to evaluate children from 4 months to 5 years (40 to 60 months).

Ages and Stages looks at development in these areas:

- 1 - Communication*
- 2 - Gross motor skills*
- 3 - Fine motor skills*
- 4 - Problem solving*
- 5 - Personal - social*

ASQ

- Completed by parent or caregiver*
- Takes approximately 10 to 20 minutes to complete*
 - Low - cost*
- Reliable way to screen children in the crucial first five years*
- Uses parents as sources of information about their child's development*

Parents are the first teachers their children will have, and know their child best. You are the best person to do an ASQ for your child!!

Early diagnosis of developmental delays can help give a child the best opportunity to reach his or her full potential
