

Community Grant Program

Through the funding provided by Province of Alberta, High River's FCSS is able to provide funding to community organizations each year. The programs must meet FCSS mandate and eligibility guidelines set by the Province.

To be considered for funding programs must be social services that are preventative in nature to promote and enhance well-being among individuals, families and communities or programs that promote volunteerism. Programs can not duplicate other services, be primarily a recreational service, provide direct support to individuals or provide crisis or rehabilitative services.

Some programs that have received funding from High River FCSS include:

- Big Brothers/Big Sisters
- Foothills Regional Victim Services
- Foothills Community Immigrant Services
